Clinical Support:	Olivia & Harrison
Team Leaders:	Hayley, Linda, Jessica, Catherine, Chloe & Megan
Receptionists:	Rebecca, Emma, Liam, Madalyn, Karen & Brittany

Appointments

Appointments can be made from Monday to Friday. This can be done by telephone, online via Hotdoc (please see reception for further information) or in person during practice hours.

A standard consultation is up to fifteen minutes in duration. If you think you need longer, please let us know when you make the appointment so that adequate time may be allocated.

Patients who are new to the practice, or who have more than one problem to discuss, may need a long appointment. Other consultations which require longer appointments are:

- Insurance medical examinations
- Annual general examinations
- Minor surgical procedures
- Counselling sessions
- Cervical Screening

Please ask our receptionists if you are unsure about the length of consultation you may need. If you are unable to keep your appointment please remember to ring and cancel it.

A fee may be charged to patients who habitually forget to cancel appointments.

Telehealth appointments

Highlands GP offers Telehealth appointments for all routine services including:

- Prescriptions
- Referrals
- Care Plan Reviews
- Mental Health Appointments

We encourage patients to make Telehealth bookings if they have difficulty getting to the practice or are unable to leave their home. Please do not delay your health or seeking medical attention

because you are unable to physically see a doctor. Please be advised that all Telehealth appointments may incur a consultation fee, at your doctor's discretion.

Walk-in appointments

Highlands GP operates on an appointment-based system and does not have routine walk-in appointments during the week. Urgent/acute walk-ins will be triaged by our Nursing Team and, where appropriate, they will arrange for you to see a Doctor.

Walk-in appointments are available on a Saturday morning at both our Bowral and Moss Vale practices, depending on capacity.

Saturday Mornings

One doctor will be available for consultation at both Bowral and Moss Vale. Patients will be seen in order of arrival. We ask that these mornings be reserved for problems that cannot be attended to at other times during the week.

After hours care arrangements

All doctors within Highlands GP participate in a roster in conjunction with other doctors within the Southern Highlands to provide afterhours care.

A clinic is run by PHN on weekends and Public Holidays on Saturday 3pm – 5pm, Sunday and Public Holidays 10am – 12pm, 3pm - 5pm. The clinic is located at 21 St Jude Street, Bowral. At other times a doctor is available by telephone 4861 6433.

Home Visits

Doctors are available for home visits for patients who are unable to attend the practice due to their medical condition, are in a nursing home or are unable to get suitable transport. If you are unable to physically attend the practice, please contact our reception team. Urgent requests will be put through to our nurses to coordinate a doctor visit. In less urgent circumstances, please advise us as early as possible that a visit is required so that the doctor's day may be planned ahead.

Geographical coverage for home visits is bounded by Mittagong in the north, Moss Vale in the south, Berrima in the west and East Bowral in the east, however individual doctors may choose to visit patients over a wider geographical area.

Telephone Access

GPs in the practice may be contacted during normal practice hours. If the GP is with a patient, a message will be taken and the reception staff will advise you when it is likely that the GP will return your call. Your call will always be put through to a Nurse or GP in an emergency.

Your doctor may consider a consultation more appropriate than a telephone call, in which case an appointment will be arranged for you.

Patient Communication

Email – Email is not a secure form of communication, if you choose to contact Highlands GP via email, this is considered as patient consent for our staff to reply via email. Our staff endeavour to respond to email messages in a timely manner, however for any urgent clinical messages for our doctors please phone the practice.

SMS – Highlands GP uses Hotdoc for our online bookings and SMS messaging. These are sent to remind patients of scheduled appointments, health reminders and health recalls. Please make sure you update the practice if there is a change to your mobile number. Please let us know if you would like to be removed from the SMS list.

Post – For patients who have opted out of SMS, a letter may be sent regarding reminders or recalls. Letters received by the practice are scanned into the patient file and forwarded to the doctor to review.

Website - Our website is updated regularly and contains practice contact details, location, opening hours and information regarding fees and services offered.

Services Available

- General Medical Health Care
- Women's Health
- Men's Health
- Worker's Compensation

Other Services

Highlands GP engages with a range of relevant health and community services to improve your care. We can assist you with available addresses and telephone numbers of community and other health organisations within the local area.

Hospital

Bowral & District Hospital	4861 0200
Southern Highlands Private Hospital	4862 9400

Dr Grant Lewis is a Visiting Medical Officer at Bowral & District Hospital.

Dr Grant Lewis and Dr Jennifer Loxton are Visiting Medical Officers of the Southern Highlands Private Hospital.

Patients who are admitted to the Southern Highlands Private Hospital may elect to be treated by one of the above doctors.

Informed Decisions

Highlands GP understands the importance of providing you with as much information as possible, (eg. the purpose, importance, benefits, risks and possible costs associated with proposed investigations, referrals or treatments) to ensure that you can make informed decisions about your health. Highlands GP also acknowledges the right of patients to refuse any treatment, advice or procedure.

Fees and Billing Arrangements

Highlands GP is a privately billing practice. Fees are payable on the day of consultation. Cash, cheque, EFTPOS, MasterCard or Visa card are accepted. Patients in genuine financial hardship should talk to their doctor, as no patient will be turned away due to financial hardship.

Children under the age of 12 years are bulk billed.

Process for Follow up of Results

During your appointment your doctor will advise you to either make a follow-up appointment or ring the practice for your results. If your results are normal, you will not be contacted by us. If your doctor would like to discuss your results with you we will ring you to make an appointment.

Referrals and Repeat Prescriptions

Referrals and repeat prescriptions require time and careful thought to prepare. Medical histories, allergies, and past treatments must be reviewed. **For these reasons a consultation is required.**

Only in rare circumstances is a consultation waived and a prescription or referral provided without a consultation. In these instances, a fee will apply. Where possible 48 hours' notice for referrals and prescriptions are required.

The provision of an Authority prescription always requires a consultation.

Reminder System

Our practice is committed to preventive care. We may issue you with a reminder notice or phone call from our practice Nurse from time to time if we notice you are overdue for a visit. In some instances we may contact you to offer preventive health services appropriate to your care. If you do not wish to be part of this system please let your Doctor know.

Management of your Personal Health Information

The provision of quality health care requires a doctor patient relationship of trust and confidentiality.

Consistent with our commitment to quality care this practice has developed a policy to protect patient privacy in compliance with privacy legislation.

Further information on our policy is available. Talk to your Doctor or ask Reception for a copy of our privacy policy.

Quality Control

Your safety during visits to our practice is important to us. Consequently, we follow strict infection control guidelines as recommended by the National Health and Medical Research Council.

All items used during your visit are either fully disposable or are sterilized by autoclave under steam pressure. These precautions, and the disposal of clinical waste, are costly in terms of materials, labour and maintenance. They are part of your medical care, and are reflected in our consultation fees.

Our practice is accredited every three years to ensure our facilities and policies and procedures are of the highest standard.

Additional information:

Children - We understand that children can become ill quite suddenly. We have a policy that we will always provide an appointment to see children who are unwell.

Children are able to attend their parent's appointment if necessary. If you require special assistance while you are waiting, please ask reception staff if they can provide colouring equipment or additional toys for children.

Breast feeding is encouraged in all areas of the practice however if you wish to feed in private please ask for help. Bottles can be heated if necessary. Baby changing facilities are provided and are located in the rest room near reception.

Wheelchair - We have a wheelchair available at reception for patients who are unable to walk from the car.

Disabled Parking - There are designated parking spaces close to the entrance of the practice reserved for holders of disabled parking permits.

Interpreter Service

An interpreter service can be accessed for your consultation. Please discuss this with reception prior to your appointment to arrange an interpreter.

Patient Feedback

At Highlands GP, we welcome the views of patients as to how our services might be improved. In the interests of improving patient care, surveys of patients' opinions are conducted from time to time.

In the meantime, should you have any feedback, please let us know. A feedback box is located at reception or you can email feedback to admin@highlandsgp.com.au

If you have any serious concerns, please discuss these with your doctor or our Practice Manager in the first instance or, if necessary you may write to:-
